

BCE-C514 (Sessional-I) Cloud Computing

Time: 1:00 Hour Date:18/09/2024

Section A (Each question carries five marks. Attempt all the questions. There are two questions in section A with internal choice)

S. No.	Questions	Learning Outcome
Q.1	Explain about cloud and their types.	LO – 02
Q.1	Explain about Virtualization and benefits of Virtualization.	LO – 01,02
Q.2	Explain about cloud services in brief.	LO-02
Q.2	Explain about API and advantages of API.	LO-02

Section B (Each question carries ten marks. There is one question in section B with internal choice)

S. No.	Questions	Learning Outcome
Q.1	Draw and explain the block diagram of Virtualization	LO-02,03
Q.1	Draw and explain the block diagram of IAAS, PAAS	LO-02,03

BCE-C514 (Sessional-II) Cloud Computing

Time: 1:00 Hour Date:22/10/2024

Section A (Each question carries four marks. Attempt any three.)

S. No.	Questions	Learning Outcome
Q.1	How does a common cloud management platform ensure seamless management of multiple cloud service?	LO-02
Q.2	What are some examples of popular PaaS platform?	LO-01
Q.3	What are the primary benefits of Using Database as a service?	LO-02
Q.4	Explain about API and advantages of API.	LO-01

Section B (Each question carries Eight marks. Attempt any one)

S. No.	Questions	Learning Outcome
Q.1	Draw and explain the block diagram of Cloud Computing	LO-02
Q.2	Draw and explain the block diagram of IAAS, SaaS	LO-01
