

First Tutorial
Embedded System Design
FET, Gurukul Kangri University Haridwar

NOTE : ATTEMPT ANY FIVE QUESTION

- Q.1 What is an Embedded system
- Q.2 Discuss in short, History of Embedded system
- Q.3 Discuss Characteristics of Embedded system
- Q.4 Discuss Advantages of Embedded system
- Q.5 Discuss Disadvantages of Embedded system
- Q.6 Discuss Types of Embedded System
- Q.7 Discuss Application of Embedded systems
- Q.8 Discuss Embedded system Processor in short
- Q.9 Discuss Structure of an Embedded System in detail
- Q.10 Discuss Important terminologies used in embedded system
- Q.11 Explain What is Microcontroller
- Q.12 Explain What is Microprocessor
- Q.13 Discuss Difference between Microprocessor and Microcontroller
- Q.14 Discuss Embedded System tools and peripheral devices.
